Summary

Passionate and detail-oriented in B.E Computer Science (AI & ML) with a strong foundation in machine learning, data structures, and software development. Proficient in Python, Java, SQL, and deep learning frameworks such as TensorFlow. Demonstrated problem-solving skills through academic projects like lung disease classification.

Skills Summary

- **Programming Languages:** Python, C, Java basics.
- **Web Technologies & Databases:** HTML, CSS, Flask, MySQL
- **Machine Learning & AI:** TensorFlow, scikit-learn, OpenCV, YOLO, MediaPipe, MobileNetV2
- **Data Handling & Visualization:** Pandas, NumPy, Tableau, Power BI, Excel.
- **Tools & Platforms**: Jupyter Notebook, Google Colab, Visual Studio Code, Git.
- **CS fundamentals:** Operating Systems, DSA, Computer Networks, Software Engineering, OOPS
- **Soft Skills**:Communication, Teamwork, Problem Solving.

Projects

Binary Regression on 3D Objects Using Machine Learning

Applied machine learning techniques to predict binary outcomes from 3D object data (e.g., shape classification or object pass/fail).

Used **Python**, **Scikit-learn**, and **3D processing** tools to extract geometric features.

Trained regression models and evaluated results using R^2 score and Mean Squared Error (MSE).

LUNGS DISEASE CLASSIFICATION USING DEEP LEARNING

Technologies: Python, TensorFlow, CNN, Keras, OpenCV, X-ray Dataset

Developed a deep learning model using Convolutional Neural Networks (CNN) to classify chest X-ray images into categories such as Pneumonia, Tuberculosis, and COVID-19.

Education

ATME College of Engineering, Mysore 2022-2026
BE in Computer Science (AI & ML); CGPA: 8.1

ST Joseph pu college for girls, Sathgalli Mysore 2022
PUC(PCMB); 69%

Andalus english school, Mysore 2020
SSLC; CGPA: 69%

Certifications

- TATA GenAI Powered Data Analytics Job Simulation (Forage) July 2025
- Deloitte Data Analytics Job Simulation (Forage) July 2025
- AWS Solutions Architecture Job Simulation(Forage) July 2025
- Getting Started with Artificial Intelligence (IBM SkillsBuild) July 2025

Extra-Curricular Activities

- SKULERR Tech Expedition – Attended a one-day workshop on AI, Power BI, and AR/VR, conducted by experts from GlobalLogic and TechShiksha | ATMECE (Jul 2024)
- National Level Hackathon (Techavishkar 2.O), 15-16 May 2025.
